

## Functions of the Heating Machine GM H40 for shrink

- It allows you to heat shrink tubing in a simple and safe way
- Possibility to work several pieces simultaneously

HEATING MACHINE FOR SHRINK	GM H40
Alimentation	Monophase 230 V 50/60 Hz
Pneumatic Alimentation	No
Absorbment	2300 W
Oven Temperature	180°C
Heating Methodology	Infrared Radiant Tube
Workable Diameter	Max 25 mm
Shrink Length	Max 130 mm
Oven Dimension	Semicircular Radius 60 mm
Feeding	No
Display	Digital Numeric Viewer
Memory	No
Weight	18 Kg
Controller Dimensions	195x195x140 mm (DxWxH)
Oven Dimensions	225x400x290 mm (DxWxH)
