

TYING MACHINE	GM149
Alimentation	Monophase 230 V 50/60 Hz
Pneumatic Alimentation	No
Absorbment	400 W
Binding Depth	150÷250 mm
Material Diameter To Be Binded	Min 35 mm
Start	Pedal
Consumable Material	Till to 110 N, PSc 1300, 2K, 3K
Workable Material	Used in Many Sectors
Productivity	Till to 75 Cycle/m
Display	No
Memory	No
Weight	75 Kg
Dimensions	1020x557x402 mm (WxDxH)

Functions of the Tying Machine GM149

- Binding in a simple and precise way
- The tying machine does not damage the bound material
- Very strong 3K wire
- Allows you to tie skeins of wire with a minimum internal diameter of 35 mm
