enamelled wire

STRIPPING MACHINE FOR ENAMELLED WIRE	GM D10
Alimentation	Monophase 230 V 50/60 Hz
Pneumatic Alimentation	No
Absorbment	300 W
Stripping Length	3÷40 mm
Workable Sections	Depends on the Material
Workable Diameter	0,2÷4 mm
Workable Cable	Enamelled Wire
Min Cable Length	30 mm + Strip
Tolerance	Not Definable
Display	No
Memory	No
Weight	25 Kg
Dimensions	550 x 350 x 500 mm (WxDxH)

Functions of the Stripping Machine GM D10 for enamelled wire

- Strip enameled round conductors
- Peel enameled strips
- Suction of processing residues
